

Model 35

Continually exceeding your expectations of commercial-grade currency counters

MAGNER[®]

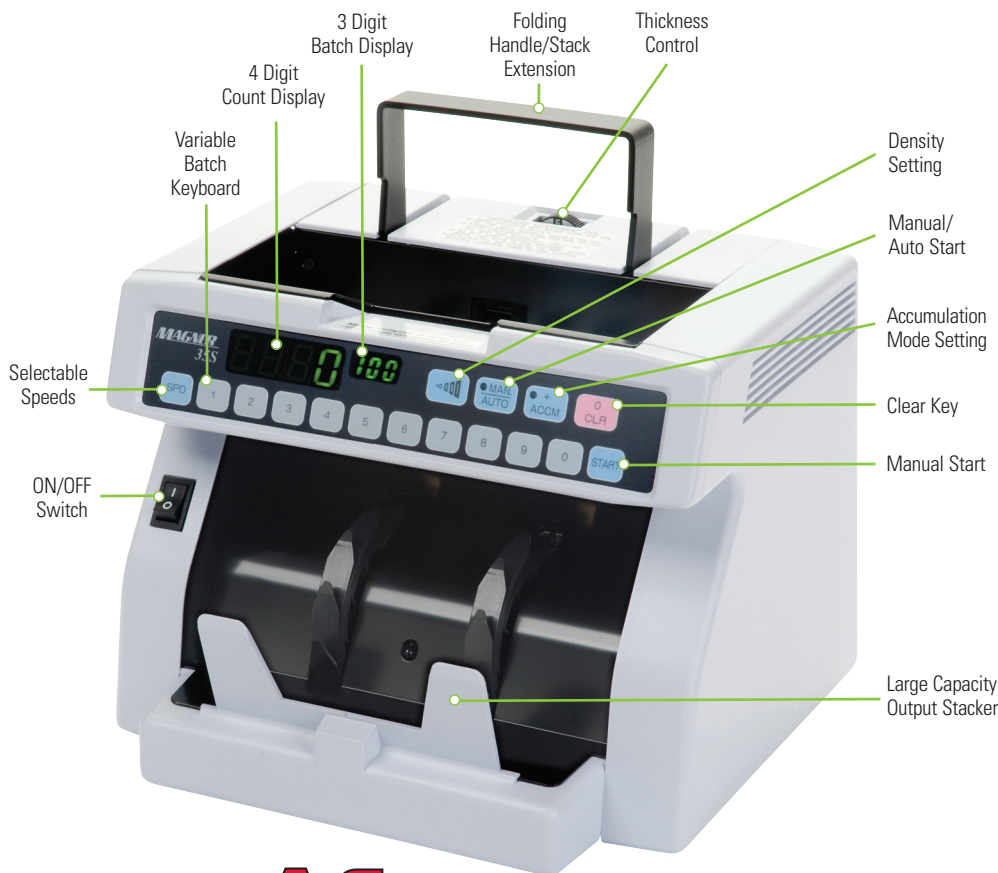

Proven Performance and Quality

MAGNER® Model 35

The model 35S is the basic workhorse of the MAGNER® family of friction currency counters. It is the largest selling tabletop counter in the world and has earned a solid reputation as being highly dependable, with an average mean time of two years between failure.

The Model 35S Currency Counter was expressly designed for outstanding performance in basic counting applications and to be ruggedly dependable even in moderate to heavy use customer environments, especially those that demand consistent operation when processing notes in all conditions. It is extremely simple to operate and offers standard features including selectable speeds, automatic start, variable batching, and accumulation mode to ensure greater productivity and maximum flexibility in currency processing applications.

Our Currency Counters have evolved from years of experience and are supported through our network of MAGNER® Authorized Distributors Nationwide.
